

Weekly excess non-flu-like deaths vs. the 2015-2019 weekly mean, 2020-2021 — 12 states with the most deaths

Deaths attributed to causes other than the era's epidemic respiratory ones (influenza and pneumonia before 2020; plus COVID-19 from 2020). A shortfall may reflect deaths recertified to COVID-19 rather than fewer deaths from these causes.
